Virtual Teacher Operations & Learning Management

WHO ARE WE?

The Entacit team has over 50 years of combined experience in the virtual teaching world. We've developed multiple platforms to solve the unique and complex problems that are inherent when teaching online at scale. TeachForce combines lessons learned, best practice, power, and flexibility, and is the culmination of our experience.

GLOBAL EXPERIENCE

We've provided virtual education to students in countries around the world, including China, Japan, Korea, Indonesia, Turkey, Saudi Arabia, United States, and more.

WHY ENTACIT TEACHFORCE?

More than video conferencing

Conferencing is a single step in a complicated process. TeachForce handles everything before, during, and after a session happens.

Not just a Learning Management System

A traditional LMS is designed to be teacher-driven. TeachForce gives your org full control.

Virtual teaching at scale

Flexible scheduling, trackable payroll, and powerful licensing are all included.

Quality, reliability, and visibility

From live dashboards to reporting, TeachForce provides tools to ensure your service runs smoothly.

The screenshot shows a web application interface for class management. On the left is a sidebar with navigation items: Dashboard, Organizations, Packages, Users, Classes, Broadcast, and Cohort. The main content area is titled 'Math Level 1 - Fall 2020' and includes an 'Edit' button. Below the title, there are two sections: 'Details' and 'Sessions'. The 'Details' section contains a table with columns for Name, Status, and Description. The 'Sessions' section contains a table with columns for Solution, Buffer Start Length (minutes), Session Length (minutes), and Buffer End Length (minutes).

Name	Status	Description
Math Level 1 - Fall 2020	Active	

Solution	Buffer Start Length (minutes)	Session Length (minutes)	Buffer End Length (minutes)
----------	-------------------------------	--------------------------	-----------------------------

POWERFUL CLASS MANAGEMENT

- ❖ Multiple class types to facilitate any scenario, including one-on-one sessions, multiple students all at home, a single classroom of students, and even broadcasts.
- ❖ Assign one or more teachers to a class or specific class sessions, and apply substitutes as needed.
- ❖ Enrol students and track their attendance, feedback, and more.
- ❖ Configure any integrated video conferencing solution to be used for the class.

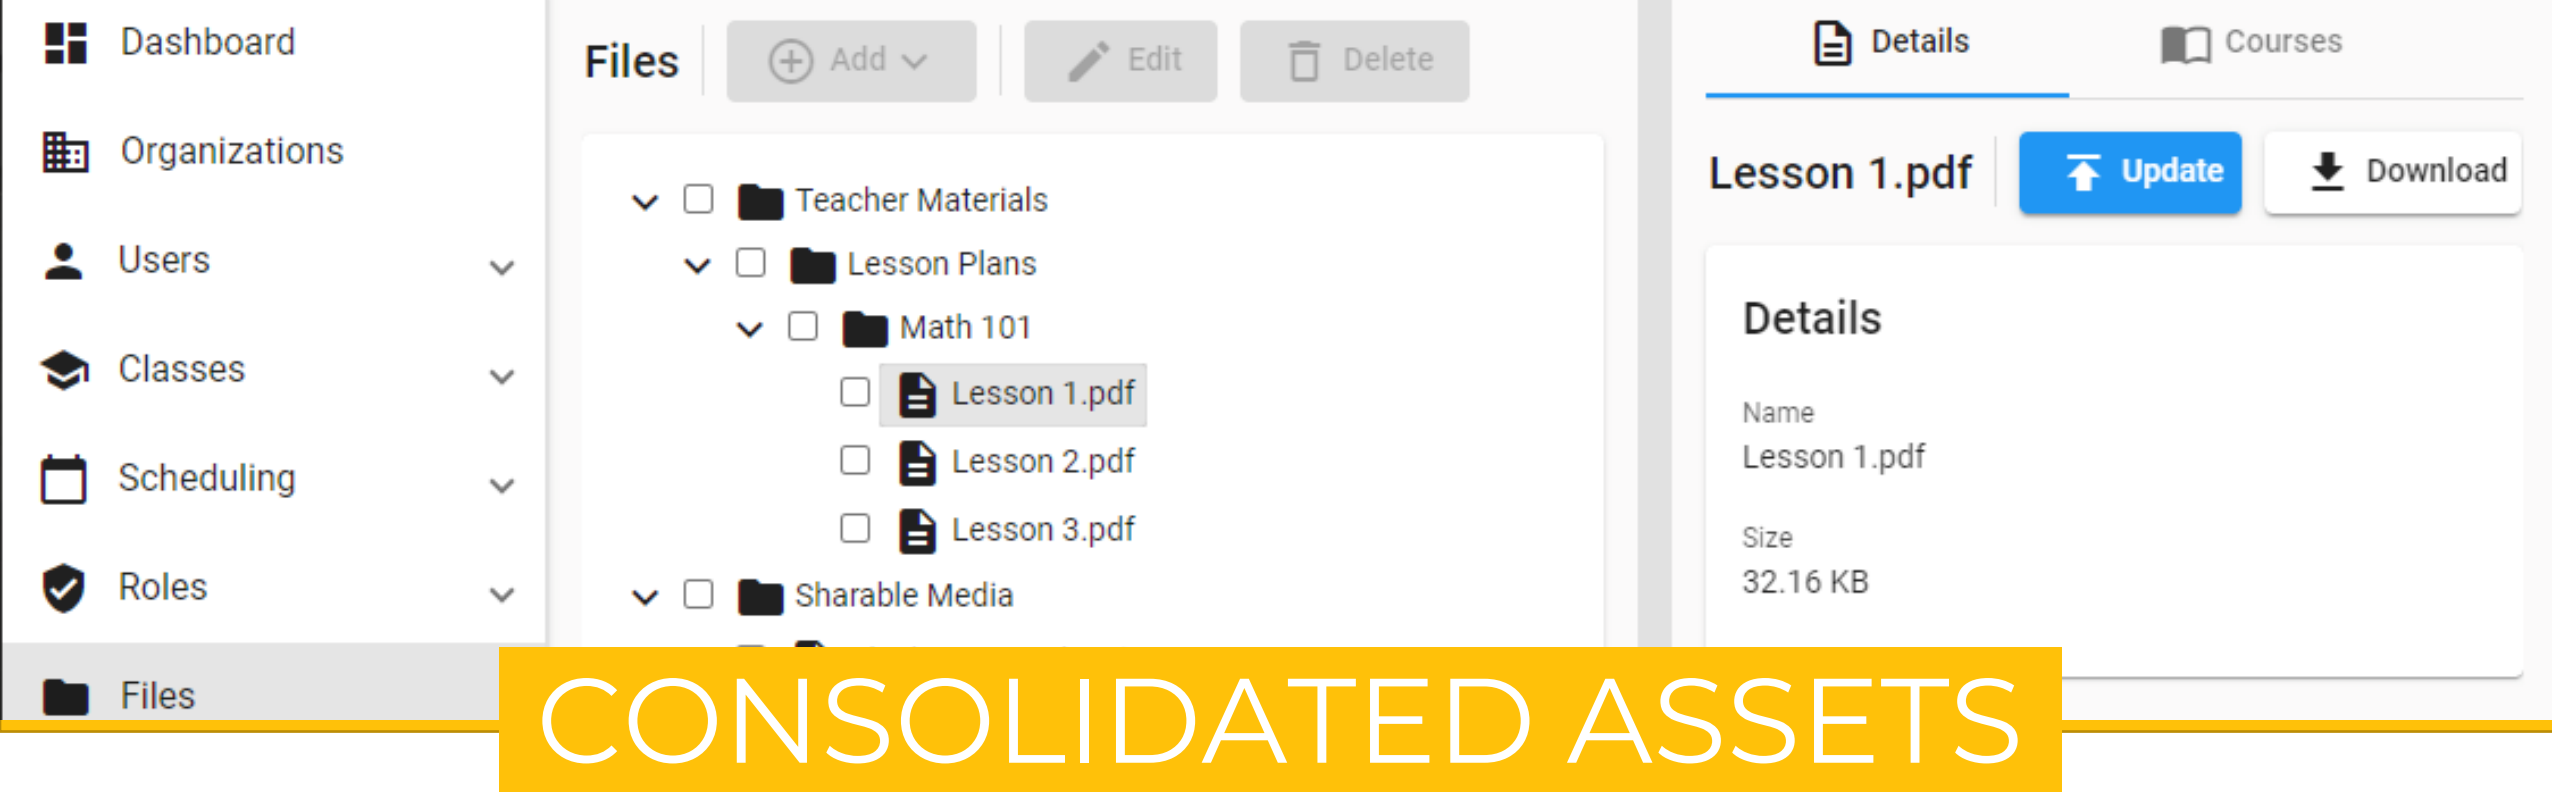

FLEXIBLE SCHEDULING

- ❖ Allow teachers to define their available time, or set the schedule for them.
- ❖ Multiple student enrolment methods, including manual, automatic, and self enrolment.
- ❖ Define teacher payment rules to facilitate on-the-clock and pay-per-session scenarios.

CONSOLIDATED ASSETS

- ❖ Store and manage your teaching files and assets in a single, user-friendly interface.
- ❖ Associate files with classes for easy access by teachers and students.
- ❖ Add files to courses to enhance the learning experience for students or provide offline homework assignments.

LIVE OPERATIONS

- ❖ Monitor teacher and student activity in real time.
- ❖ Use smart tools to find available substitutes.
- ❖ Internal staff messages system to provide information and alerts.
- ❖ Issue reporting tools.

The screenshot displays a 'Live Ops' dashboard for Tuesday, May 11, 2021, at 12:00 PM. At the top, there are three status buttons: 'Missing : 1' (red), 'Teaching : 0' (green), and 'Upcoming : 2' (blue). Below these is a calendar view for May 11, 2021, with navigation arrows on the left. The main area is a grid showing teacher assignments for three teachers: Teacher One, Teacher Three, and Teacher Two. The columns represent time slots: 11:00 AM, 12:00 PM, and 1:00 PM. Teacher One has a red bar labeled 'Beginner English' from 12:00 PM to 1:00 PM. Teacher Three has a blue bar labeled 'Advanced English' from 12:00 PM to 1:00 PM. Teacher Two has a blue bar labeled 'Beginner English' from 12:00 PM to 1:00 PM. A red vertical line is positioned at the 12:00 PM mark.

Teachers	11:00 AM	12:00 PM	1:00 PM

TEACHER PAYROLL

❖ Define teacher pay rates and easily calculate pay checks with details for work performed.

❖ Pay teachers for blocks of time and/or specific classes taught.

❖ Define pay periods and pay codes to adhere to accounting requirements.

STANDARDS-BASED E-LEARNING

- ◆ Enhance and supplement student learning with your SCORM-based E-Learning courses.
- ◆ Manage access to E-Learning courses manually, through self-enrolment, or via placement tests.
- ◆ Track student progress through self study courses, and provide grades or certificates of completion.

The screenshot displays the 'Entacit - Manager' web application interface. The top navigation bar includes the title 'Entacit - Manager', the date and time 'Sunday, November 8, 2020 1:58 PM', and a user profile 'Demo (I...)'.

The left sidebar contains a menu with the following items: Dashboard, Organizations, Users, Classes, Scheduling, Roles, Files, Self Study (highlighted), and Lesson Plans.

The main content area is titled 'Self Study' and features a blue '+ Add' button. Below this, a tree view shows the course structure:

- Math 1095 - Basic Algebra
 - Linear Equations
 - Lesson 1 - Linear functions
 - Lesson 2 - Linear inequalities
 - Lesson 3 - Compound value equations
 - Lesson 4 - Systems of linear equations
 - Polynomials
 - Factoring Polynomials
- Math 2095 - Advanced Algebra
- English 1001
- English 2001
- Physics 1025 - Motion of Objects

TRACKABLE ORGANIZATIONS

❖ Easily manage your students by creating multiple organizations that represent groups, grade levels, or even entire schools.

❖ Track and report on students by organization.

❖ Configure security and login domains for each organization.

ROBUST ROLES & PERMISSIONS

- Having the right tools for the job is important. Configure manager and teacher accounts to provide access to the exact set of functionality that each requires.
- Granular permissions give you full control over every aspect of account authorization.

The screenshot displays the 'Entacit - Manager' interface. On the left is a navigation sidebar with options: Dashboard, Organizations, Users, Classes, Scheduling, Roles, Managers (highlighted), Teachers, Files, Self Study, and Lesson Plans. The main content area is titled 'Details' and shows the user 'Admin' with a description of 'All Permissions' and an 'Edit' button. Below this is a 'Permissions' table:

	Edit		
Account	<input checked="" type="checkbox"/>		
Availabilities	<input checked="" type="checkbox"/>	<input checked="" type="checkbox"/>	
Broadcast Classes	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
Cohort Classes	<input checked="" type="checkbox"/>	<input checked="" type="checkbox"/>	<input checked="" type="checkbox"/>
Courses	<input checked="" type="checkbox"/>	<input checked="" type="checkbox"/>	<input checked="" type="checkbox"/>

The screenshot displays a software interface for managing student licensing. On the left is a sidebar with navigation options: Dashboard, Organizations, Packages, Users, Classes, and Scheduling. The main content area has three tabs: Details, Codes, and Licenses. The 'Details' tab is selected, showing the title 'West Hills Fall 2020' and an 'Edit' button. Below this is a table with the following data:

Name	Organization	Max Licenses
West Hills Fall 2020	West Hills	500

Below the table is a 'Cohort' dropdown menu.

CONFIGURABLE STUDENT LICENSING

- ❖ Create licenses for clients from your packaged products and services, including live classes, E-Learning courses, and more.
- ❖ Generate multi- or single-use codes to facilitate bulk or individual student self-registration.
- ❖ Control access based on number of licensed seats, start and end dates, usage days, and other criteria.
- ❖ Track and report on license usage.

SO MUCH MORE

- ◆ Teacher feedback to students
- ◆ Teacher calendar integration
- ◆ Session recordings for staff and/or student playback
- ◆ Email reminders
- ◆ Reporting
- ◆ Course builder for specialized learning flows

CASE STUDIES

Just Right Reader

 <https://www.justrighthereader.com>

 United States

 Sara Rich, a Harvard grad and long-time principal, created Just Right Reader to increase child literacy. Without a platform, the business was unable to scale. JRR now operates virtual teaching services for consumers and school districts, and they are soon launching interactive books on the TeachForce platform.

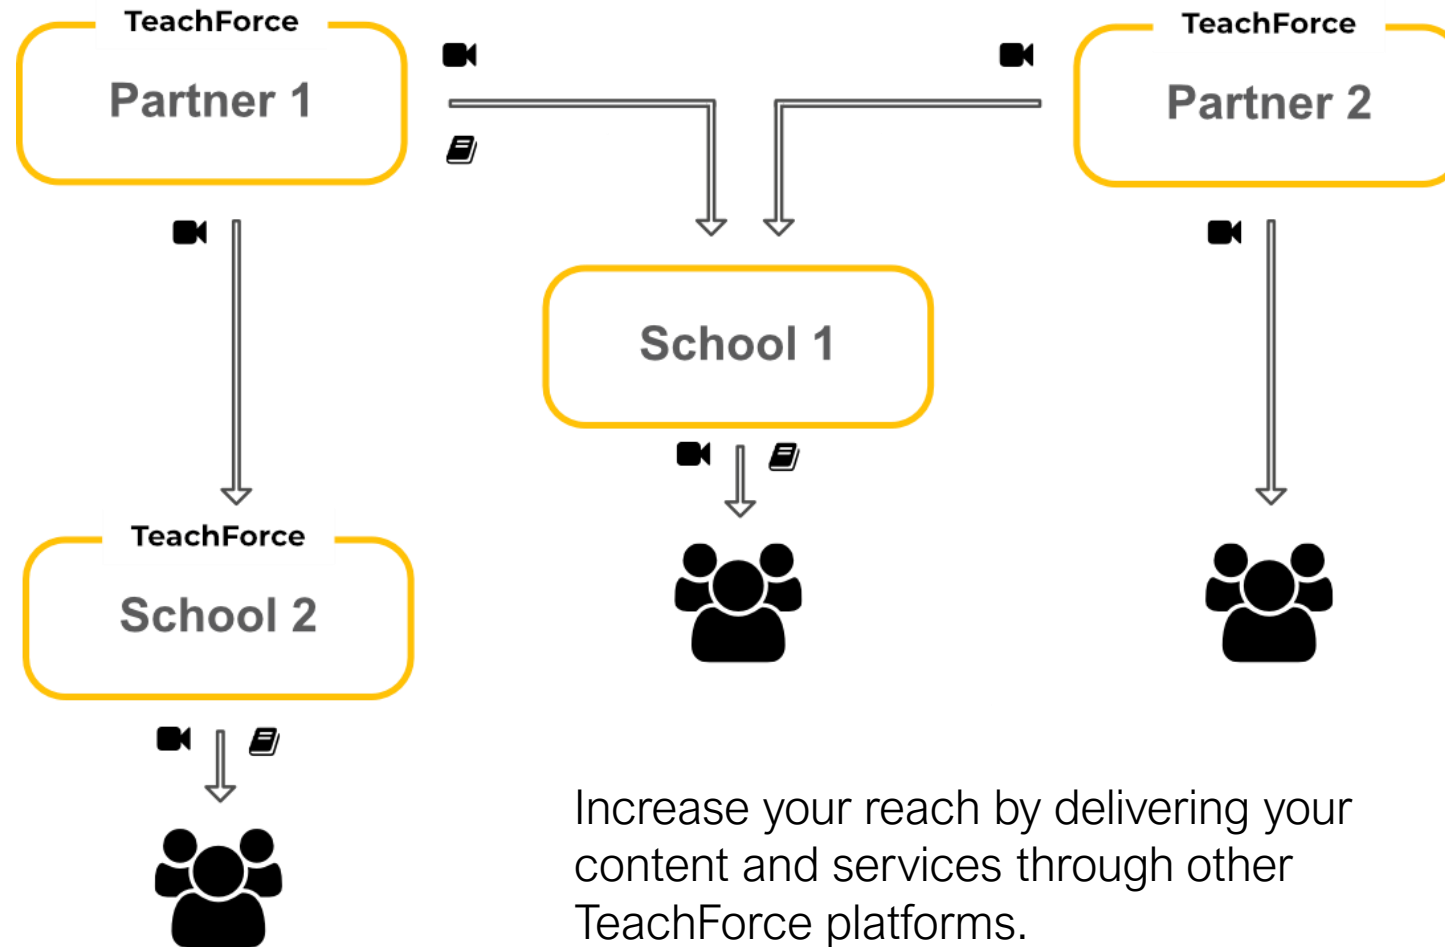

TeachCast

 <https://www.teachcastwithoxford.com>

 Indonesia, Turkey, Saudi Arabia

 TeachCast has partnered with Oxford University Press to provide ESL content and virtual teachers to students and corporate learners. The TeachForce platform allows TeachCast to run broadcast, group, and one-on-one sessions at scale while maintaining quality, while also delivering traditional eLearning content.

Future: Marketplace

Increase your reach by delivering your content and services through other TeachForce platforms.
